

**Instead of us telling you how much we care about cleaning your home, let us show you a few ways in which we offer surprisingly good value and customer service.**

**At Refresh Carpet & Upholstery Cleaning, our technicians are constantly moving so we use special floor and shoe covers, plus corner and stair guards, to protect your floors, walls, rails, etc. from scratches, dirt, debris, or any mess.**

**We use Biodegradable Environmentally Friendly Cleaning Agents.**

**Our powerful truck mount system heats up the water to 200 degrees for the best cleaning possible, then our high suction vacuum hoses take the dirty water away allowing the carpets to dry in record time.**
